

# Choosing a Screening or Progress Monitoring Tool

Before choosing the best progress monitoring or screening tool to use in your district or school, please consider your unique needs:

- What is your district or school looking for in a progress monitoring and screening tool?
- What are some of the most important criteria you will consider when choosing a tool?

Completing this form will help your district answer these questions.

## Evaluate your needs based on....

Cost of tool (i.e., initial start-up, ongoing fees):

Administration format (e.g., paper/pencil, computer, palm):

Administration and scoring time:

Technology requirements:

Staff training:

Content area and grade level:

Frequency of administration:

Student accommodations:

Technical adequacy (reliability/validity):

Accuracy in identifying students at risk (classification accuracy):

Need for national/local benchmarks:
