## Testing Brief

## End-of-Course Tests

Spring 2008
April 28, 2008 - June 6, 2008

Georgia law (O.C.G.A. §20-2-281) states "the State Board of Education shall adopt end-ofcourse assessments for students in grades 9 through 12 for all core subjects to be determined by the state board." The purpose of the End-of-Course Tests is to assess student achievement in the Quality Core Curriculum and Georgia Performance Standards in the designated eight core courses and to provide diagnostic data to improve student achievement. Definitions for student achievement as defined by Georgia teachers at the Meets Standard performance level and the Exceeds Standard performance level are outlined in the EOCT Interpretive Guide and on the Individual Student Report for each content area.

The EOCT assess only a sample of the knowledge and skills that educators agree comprise a complete curriculum for each subject. Georgia students have opportunities to learn - and are expected to master - much more than the tests address. The Georgia Quality Core Curriculum is the source of the knowledge and skills assessed on the Math tests. The Georgia Performance Standards are the source of the knowledge and skills assessed on the Science, Language Arts, and Social Studies tests.

## Key Findings - Language Arts

## NINTH GRADE LITERATURE AND COMPOSITION

o A total of 99,298 students were assessed in Ninth Grade Literature and Composition.
o Seventy-three (73) percent of Georgia’s ninth grade students met or exceeded the standard for Ninth Grade Literature and Composition.
o The mean scale score for Ninth Grade Literature and Composition was 418.**
American Literature and Composition
o A total of 81,120 students were assessed in American Literature and Composition.
o Eighty-four (84) percent of Georgia’s students met or exceeded the standard for American Literature and Composition.
o The mean scale score for American Literature and Composition was 430.**

## KEy Findings - ScIENCE

## Biology

o A total of 98,462 students were assessed in Biology.
o Sixty-two (62) percent of Georgia’s students met or exceeded the standard for Biology.
o The mean scale score for Biology was 415.**
Physical Science
o A total of 66,959 students were assessed in Physical Science.
o Sixty-three (63) percent of Georgia's students met or exceeded the standard for Physical Science.
o The mean scale score for Physical Science was 421.**

## Key Findings - Social Studies

## U.S. HISTORY

o A total of 86,117 students were assessed in U.S. History
o Fifty-nine (59) percent of Georgia’s students met or exceeded the standard for U.S. History.
o The mean scale score for U.S. History was 410.*

## ECONOMICS/BuSINESS/FREE ENTERPRISE

O A total of 47,373 students were assessed in Economics/Business/Free Enterprise.
o Sixty-eight (68) percent of Georgia's students met or exceeded the standard for Economics/Business/Free Enterprise.
o The mean scale score for Economics/Business/Free Enterprise was 420.*
** For Ninth Grade Literature, American Literature, Biology, Physical Science, U. S. History and Economics/Business/Free Enterprise, a scale score of 400 is necessary to meet standard. A scale score of 450 or higher is necessary to exceed standard. The Ninth Grade Literature, American Literature, Biology, and Physical Science tests were aligned with the Georgia Performance Standards, beginning with the 05/06 school year. The U.S. History and Economics/Business/Free Enterprise tests were aligned with the Georgia Performance Standards beginning with the 07/08 school year. With the transition from the Quality Core Curriculum (QCC) to the new Georgia Performance Standards (GPS), both the content and the performance
standard for these tests changed. When this occurs, it is appropriate to establish a new scale to describe performance. It is important to note that the new GPS based EOCT are not comparable to previous QCC-based tests.

## Key Findings - MAthematics

Algebra I
o A total of 88,652 students were assessed in Algebra I.
o Fifty-five (55) percent of Georgia's students met or exceeded the standard for Algebra I.
o The mean scale score for Algebra I was 608.*

## GEOMETRY

o A total of 80,891 students were assessed in Geometry.
o Sixty-one (61) percent of Georgia's students met or exceed the standard for Geometry.
o The mean scale score for Geometry was 612.*

* For Algebra I and Geometry, a scale score of 600 is necessary to meet standard. A scale score of 630 or higher demonstrates a performance level of exceeds standard. The Algebra I and Geometry EOCT continue to be aligned to the Quality Core Curriculum (QCC)

## Percent in Performance Level - Georgia EOCT - Spring 2008

| Performance <br> Level | Ninth Grade <br> Literature and <br> Composition | American <br> Literature and <br> Composition | Biology | Physical <br> Science | U.S. <br> History | Economics | Algebra I | Geometry |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Exceeds Standard | 20 | 28 | 21 | 28 | 22 | 25 | 26 | 27 |
| Meets Standard | 53 | 56 | 40 | 35 | 37 | 44 | 29 | 34 |
