## Testing Brief

End-of-Course Tests (EOCT) Winter 2008<br>December 1, 2008 - January 9, 2009

Georgia law (O.C.G.A. §20-2-281) states "the State Board of Education shall adopt end-ofcourse assessments for students in grades 9 through 12 for all core subjects to be determined by the state board." The purposes of the End-of-Course Tests are to assess student achievement in either the Georgia Performance Standards (GPS) or the Quality Core Curriculum (QCC) in the designated eight core courses and to provide diagnostic data to improve student achievement. Definitions for student achievement as defined by Georgia teachers at the Meets Standard performance level and the Exceeds Standard performance level are outlined in the EOCT Interpretive Guide and on the Individual Student Report for each content area.

The EOCT assess only a sample of the knowledge and skills that educators agree comprise a complete curriculum for each subject. Georgia students have opportunities to learn - and are expected to master - much more than the tests address. The Georgia Performance Standards are the source of the knowledge and skills assessed on the End-of-Course Tests. As the high school mathematics curriculum transitions to GPS, the Algebra I and Geometry courses and EOCT are being replaced by Mathematics I and Mathematics II.

## Key Findings - Language Arts

## NINTH GRADE LITERATURE AND COMPOSITION

o A total of 30,682 students were assessed in Ninth Grade Literature and Composition.
o Seventy-four (74) percent of Georgia's students met or exceeded the standard for Ninth Grade Literature and Composition.
o The mean scale score for Ninth Grade Literature and Composition was 421*.
o Students meeting or exceeding the standard for Ninth Grade Literature and Composition during the Winter 2008 administration performed at a seven (7) percentage point increase over students meeting or exceeding this standard during the Winter 2007 administration.

## American Literature and Composition

o A total of 27,702 students were assessed in American Literature and Composition.
o Eighty-three (83) percent of Georgia's students met or exceeded the standard for American Literature and Composition.
o The mean scale score for American Literature and Composition was 427*.
o Students meeting or exceeding the standard for American Literature and Composition during the Winter 2008 administration performed at a three (3) percentage point increase over students meeting or exceeding this standard during the Winter 2007 administration.

## Key Findings - Science

## Biology

o A total of 34,936 students were assessed in Biology.
o Sixty-two (62) percent of Georgia’s students met or exceeded the standard for Biology.
o The mean scale score for Biology was 413*.
o Students meeting or exceeding the standard for Biology during the Winter 2008 administration performed at a five (5) percentage point increase over students meeting or exceeding this standard during the Winter 2007 administration.

## Physical Science

o A total of 23,569 students were assessed in Physical Science.
o Sixty-four (64) percent of Georgia’s students met or exceeded the standard for Physical Science.
o The mean scale score for Physical Science was 420*.
o Students meeting or exceeding the standard for Physical Science during the Winter 2008 administration performed at a two (2) percentage point increase over students meeting or exceeding this standard during the Winter 2007 administration.

## Key Findings - Social Studies

## U.S. History

o A total of 25,625 students were assessed in U.S. History
o Forty-nine (49) percent of Georgia's students met or exceeded the standard for U.S. History.
o The mean scale score for U.S. History was 401*.
o Students meeting or exceeding the standard for U.S. History during the Winter 2008 administration performed at a one (1) percentage point increase over students meeting or exceeding this standard during the Winter 2007 administration.

## ECONOMICS/BuSINESS/FREE ENTERPRISE

o A total of 49,149 students were assessed in Economics/Business/Free Enterprise.
o Seventy (70) percent of Georgia's students met or exceeded the standard for Economics/Business/Free Enterprise.
o The mean scale score for Economics/Business/Free Enterprise was 421*.
o Students meeting or exceeding the standard for Economics during the Winter 2008 administration performed at a seven (7) percentage point increase over students meeting or exceeding this standard during the Winter 2007 administration.
*For Ninth Grade Literature, American Literature, Biology, Physical Science, U. S. History and Economics, a scale score of 400 is necessary to meet standard. A scale score of 450 or higher is necessary to exceed standard. These tests were aligned with the Georgia Performance Standards, beginning with the 05/06 school year. With the transition from the Quality Core Curriculum (QCC) to the new Georgia Performance Standards (GPS), both the content and the performance standard for these tests changed. When this occurs, it is appropriate to establish a new scale to describe performance. It is important to note that the new GPS based EOCT are not comparable to previous QCC based tests.

## Key Findings - Mathematics

## Algebra I

o A total of 14,914 students were assessed in Algebra I.
o Forty (40) percent of Georgia's students met or exceeded the standard for Algebra I.
o The mean scale score for Algebra I was 595**.
o This EOCT continues to be aligned with the Quality Core Curriculum.

## GEOMETRY

o A total of 20,380 students were assessed in Geometry.
o Fifty-one (51) percent of Georgia’s students met or exceed the standard for Geometry.
o The mean scale score for Geometry was 603**.
o This EOCT continues to be aligned with the Quality Core Curriculum.
**As the high school mathematics curriculum transitions to GPS, the Algebra I and Geometry courses and EOCT are being replaced by Mathematics I and Mathematics II. Algebra I and Geometry EOCT are available for students who enrolled in high school prior to Fall 2008. These tests will continue to be available until the 2010/2011 school year. For Algebra I and Geometry, a scale score of 600 is necessary to meet standard. A scale score of 630 or higher demonstrates a performance level of exceeds standard. Algebra I and Geometry EOCT are aligned to the Quality Core Curriculum (QCC). Students were administered the Mathematics I EOCT for the first time during the Winter 2008 administration Due to the small sample size, standard setting for the Mathematics I EOCT was postponed until spring 2009; students were granted a waiver for the $15 \%$ grade requirement. Without test performance standards being set, summative data were not available for this report for the Mathematics I EOCT.

## Percent in Performance Level - Georgia EOCT - Winter 2008

| Performance <br> Level | Ninth Grade <br> Literature and <br> Composition | American <br> Literature and <br> Composition | Biology | Physical <br> Science | U.S. <br> History | Economics | Algebra I | Geometry |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Exceeds Standard | 24 | 24 | 17 | 29 | 15 | 25 | 12 | 15 |
| Meets Standard | 50 | 58 | 45 | 35 | 34 | 45 | 29 | 36 |
| Does Not Meet | 26 | 17 | 38 | 36 | 51 | 30 | 60 | 49 |
