

Parent Involvement *equals* Student Achievement

The Gwinnett County Public School Parent Leadership Academy

One Strategy for Increasing Parent Involvement and Student Achievement

Building Community . . . The Foundation for Excellence

No society can remain vital or even survive without a reasonable base of shared values. When community exists, it confers upon its members identity, a sense of belonging, a measure of security. A community has the power to motivate its members to exceptional performance. Community can set standards of expectations for the individual and provide the climate in which great things happen.

Today's Goal.....

provide a strategy that *will*
develop a shared,
collaborative partnership
between parents, school staff,
and community members.

Educators cannot expect total engagement and high standards from students if both families and schools cannot form powerful alliances to guide those students to academic and lifelong success.

Why do parents get involved?

Families of all cultural backgrounds, education, and income levels encourage their children, talk with them about school. They help them plan for higher education and keep them focused on learning.

Programs and interventions that engage families in supporting their children's *learning at home and school* are linked to higher student achievement

However, many parents are unclear about what role they should have in their child's education.

Parent Leadership

Meaningful Parent Leadership occurs when parents *gain* the knowledge and skills to *function* in meaningful leadership roles and *represent* the “parent voice” to help *shape* the direction of their families, programs and communities. Parent leadership is successfully achieved when parents and professionals “Build Effective Partnerships” and *share* “Responsibility”, “Expertise,” and “Leadership” in decisions being made that affect families and communities. The parents involved in these collaborations are called *Parent Leaders*.
