

What is

Partners In Education?

The Partners In Education Program was started in 1987 as a joint venture of the Muscogee County School District and the Greater Columbus Georgia Chamber of Commerce, originally known as "Adopt-A-School."

PIE is based on the concept that "human capital" is the most important resource a partner can provide.

Although partners sometimes provide funding for specific needs, the greatest benefit to education is derived from the personal involvement of volunteers in schools. Businesses, civic groups, churches and military units have created many successful partnerships.

There are four fundamental success factors to ensure a successful partnership. They are:

1. Improving Academic Performance (tutoring programs, homework hotlines, etc.)
2. Growing Career Opportunities (career fairs, tours, etc.)
3. Enriching the Life Experience for the Student (mentoring programs, community service projects, etc.)
4. Faculty Development and Enrichment (faculty workshops, teacher shadowing, etc.)

PIE is governed by a volunteer Board of Directors. Careful consideration is given to match the needs of the school with the resources of the business.
