

## Core Classroom Inventory Preschool Special Education

This document contains information on the range of assistive technology equipment that is appropriate for most preschool special education classrooms. Many of these devices support increased productivity and independence at an early age. In most instances, students use a combination of assistive technology devices to meet a range of needs. The types of assistive technology devices used to support recreation and leisure, communication, computer access, daily living aids, mobility and seating and positioning are determined by individual student needs as well as the required tasks across all instructional environments.

Core classroom technology is technology that is routinely required by students with disabilities in the classroom. Assistive technology should be available to meet the needs of **all** students enrolled in a classroom.

Technology Area	Assistive Technology Solutions	Examples	Vendors
<b>Augmentative Communication</b>	Communication Symbol Sets	<ul style="list-style-type: none"> <li>• Object/Tangible/Tactile Symbols</li> <li>• Photographs (Picture This....for Boardmaker)</li> <li>• Line Drawings (Boardmaker Picture Communication Symbols)</li> </ul>	<a href="http://www.tsbvi.edu">www.tsbvi.edu</a> <a href="http://www.mayerjohnson.com">www.mayerjohnson.com</a> <a href="http://www.designtolearn.com">www.designtolearn.com</a> <a href="http://www.blindchildrensfund.org">www.blindchildrensfund.org</a>
