

**Report to the General Assembly Pursuant to O.C.G.A.
§ 20-2-315**

GEORGIA DEPARTMENT OF EDUCATION

Report to the General Assembly Pursuant to O.C.G.A. § 20-2-315

This report is submitted by the State Board of Education and the Georgia Department of Education ("the Department") to the Georgia General Assembly pursuant to the Equity in Sports Act, O.C.G.A. §20-2-315, which prohibits gender discrimination in any interscholastic or intramural athletics program offered by Georgia's school systems.

This report provides data regarding student participation and expenditures by gender for the 2003-2004 school year. In addition, this report provides data for the years 2000-2004 in order to include local school districts that had not submitted data in time for the last annual report filed with the Georgia General Assembly. The data is self-reported by each school district and submitted to the Department via a paper report. The Department is working on the development of a web-based application to allow for better data collection and reporting to the General Assembly. This will be reflected in the Department's 2005 report to the General Assembly.

It is important to note that the participation rates contained in the report may be somewhat inflated due to the fact that each local school district reports participation by sport and not by student. Therefore, if a student participates in multiple sports, the student will be counted in the district's participation rate more than once. The Department is seeking alternative data collection methods to ensure that the participation rate is reflective of the total student population, with each student counted only once.

Title IX and Georgia's Equity in Sports Act

Ensuring that Georgia's public school students – both boys and girls – enjoy equal access to athletic opportunities is an important priority. Participation in athletics promotes many benefits, including improved physical and mental health and even improved academic performance. Research shows that participation in athletics can benefit both males and females, which reinforces the critical importance of ensuring gender equity in our schools' athletic programs.

For example, national studies indicate that girls who participate in sports can experience higher than average levels of self-esteem and graduate at significantly higher rates.¹

Similar to the requirements of Title IX, Georgia's Equity in Sports Act provides a series of wide-ranging factors that are to be considered in determining whether equal athletic opportunities are available. Under the Act, local school systems must carefully consider: "(1) Whether the selection of sports and levels of competition effectively accommodate the interests and abilities of members of both genders; (2) the provision of equipment and supplies; (3) scheduling of games and practice time; (4) travel allowances; (5) opportunity to receive coaching and academic tutoring; (6) assignment and compensation of coaches and tutors; (7) provision of locker rooms and practice and competitive facilities; (8) provision of medical and training facilities and services; and (9) publicity."² Thus, it is important that each school system examine the data contained in this report *and other information* to ensure that it is offering equal athletic opportunities that are designed to meet the interests of students from both genders.

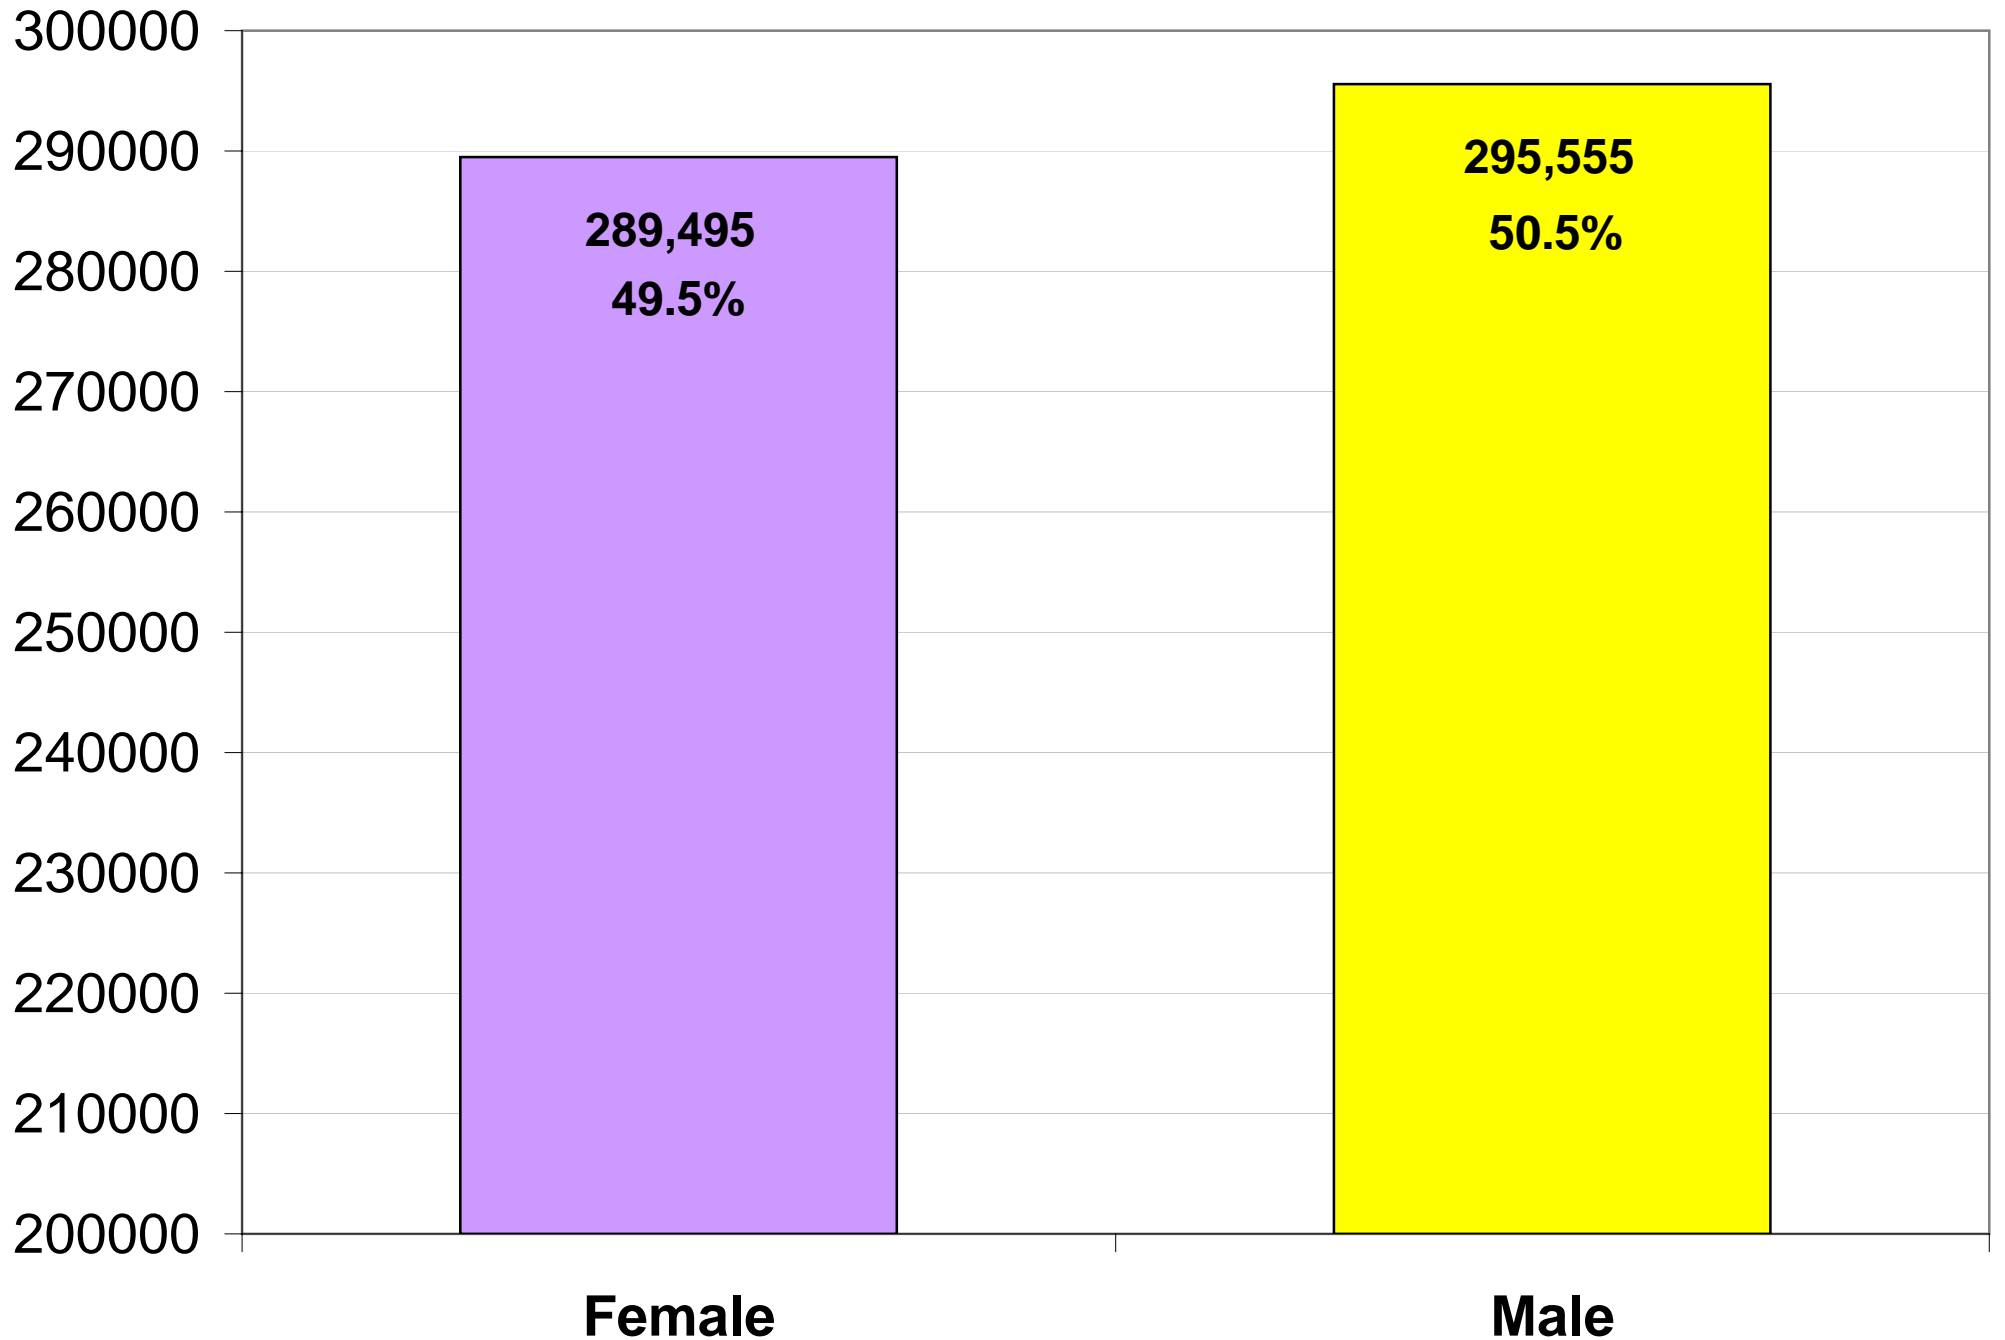

While competitive cheerleading is not considered a sport under Title IX, the 2003-2004 data provided in this report does include competitive cheerleading. The Department and the State Board of Education chose to include this data in order to provide a more accurate picture of the types of activities that Georgia students choose to participate in.

The Department is pleased to present to the General Assembly this annual report and looks forward to continuing to work with Georgia's school systems, including administrators, teachers, and parents, to ensure full compliance with the Equity in Sports Act.

¹ See *President's Council on Physical Fitness and Sports Report: Physical Activity & Sport in the Lives of Girls*, Under the Direction of the Center for Research on Girls & Women in Sport, University of Minnesota, (Spring 1997).
